## EUROMAG－Magnetic Non Contact：LPR（with Integral LED）

FEATURES：
2NC circuits for connection to safety relays to achieve up to： PLe ISO13849－1
Integral LED indication of sensing position Choice of LED versions：

Green－ON when guard is closed
Red－ON when guard is open
Popular European fitting suitable for all industry applications Narrow fitting to allow for flush mounting Wide 10 mm sensing with high tolerance to misalignment Long life high power switching capability up to 1 A M12 Quick Connect versions available

Quick Connect M12 versions fitted with 250 mm （10＂）cable

Note：The LED does not indicate the status of the NC Safety Contacts，but indicates that the actuator is aligned to give optimum performance．
